Print job id and Title	Computer	Printer	State	Created
------------------------	----------	---------	-------	---------

Help and Tips

How do I print something?

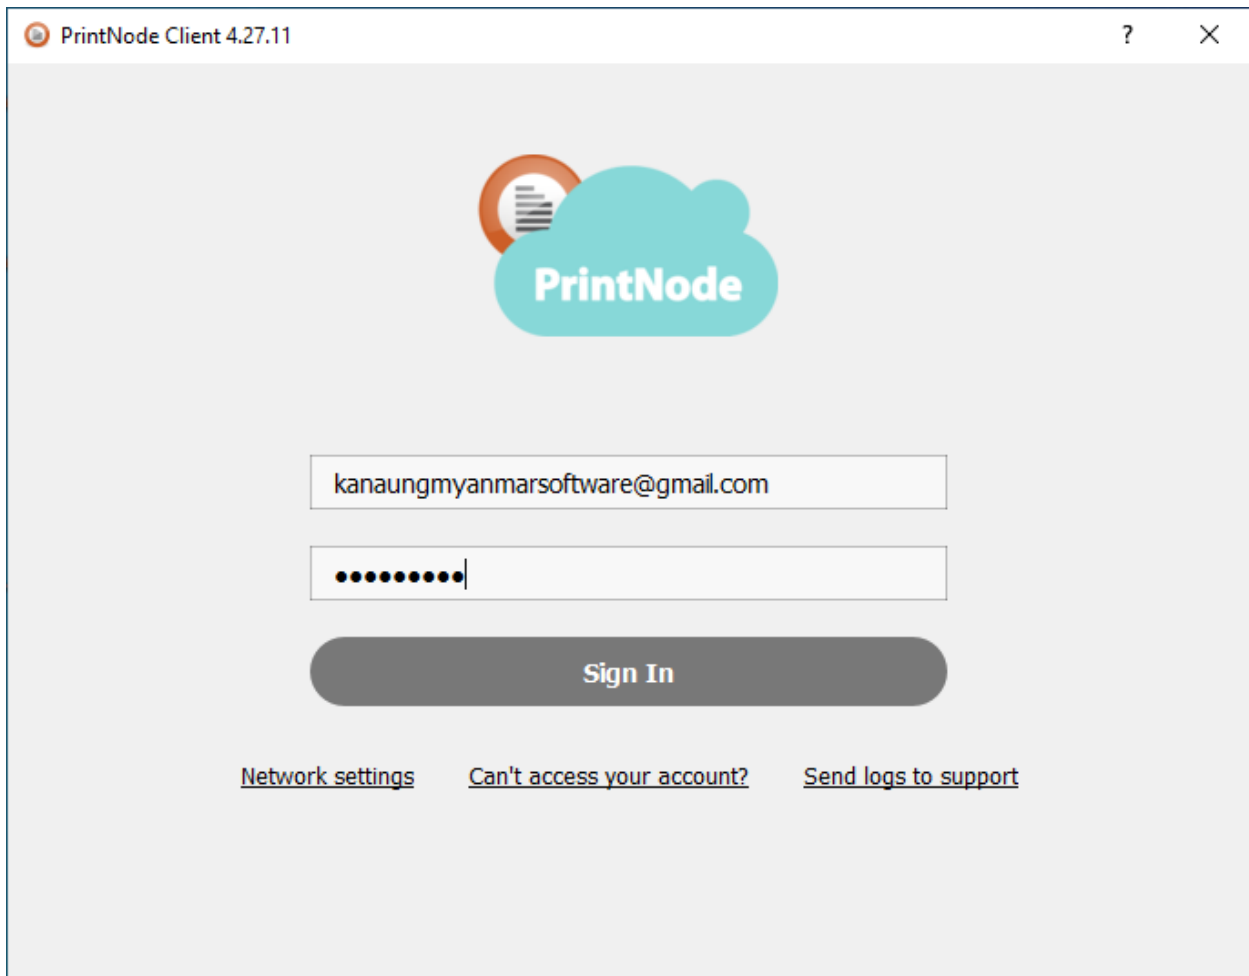

Use the drop-down menus to the left to specify a document to print. You can choose a test document from the list, upload a document from your computer or supply a URL to a document. Select the printer you'd like to send the document to and hit the PRINT button.

Print history

The Print History table shows your recent prints and useful information about them, including the print job id and title, the computer the job was sent to, the printer the job was sent to and the current state of the print job.

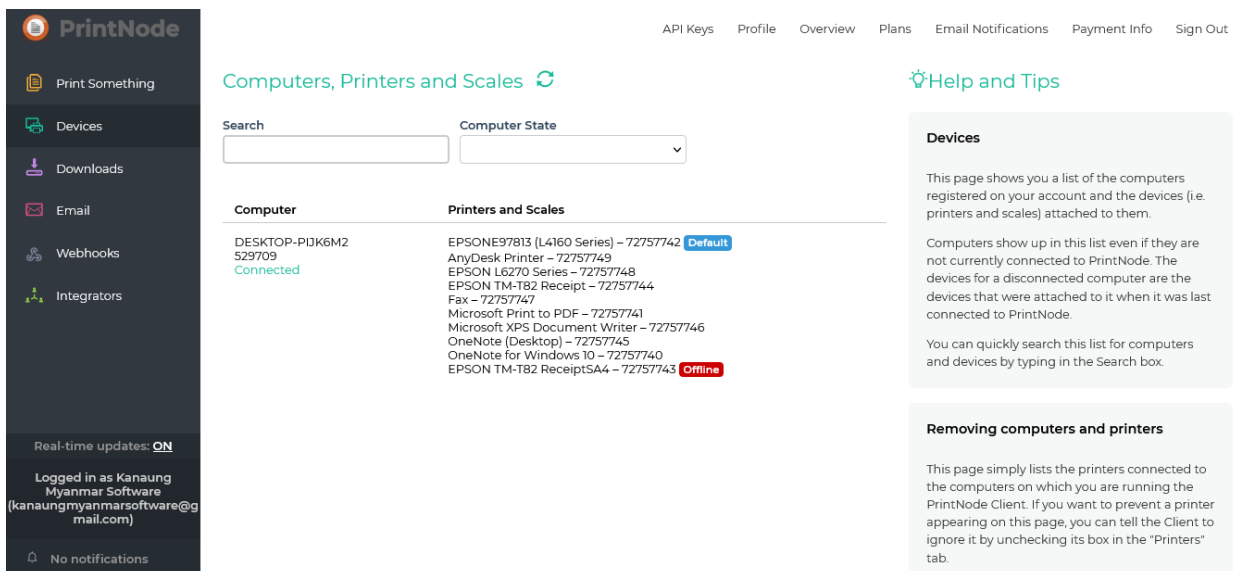

You can see more information about each print job by expanding the row (click on ). The State History tab shows the progress of the job as it was executed. This is the first place you should

3. Login user account at your local computer.

The image shows the PrintNode Client 4.27.11 login window. It features the PrintNode logo at the top center. Below the logo, there are two input fields: the first contains the email address 'kanaungmyanmarsoftware@gmail.com' and the second contains a masked password '.....'. A 'Sign In' button is positioned below the password field. At the bottom, there are three links: 'Network settings', 'Can't access your account?', and 'Send logs to support'.

4. To check printers, Click Devices Menu.

The image shows the PrintNode dashboard. On the left is a sidebar with a 'PrintNode' header and a menu including 'Print Something', 'Devices', 'Downloads', 'Email', 'Webhooks', and 'Integrators'. The main content area is titled 'Computers, Printers and Scales' and includes a search bar and a 'Computer State' dropdown. Below this is a table with two columns: 'Computer' and 'Printers and Scales'. The 'Computer' column lists 'DESKTOP-PIJK6M2' with ID '529709' and status 'Connected'. The 'Printers and Scales' column lists several devices with their IDs and status: 'EPSONE97813 (L4160 Series) - 72757742' (Default), 'AnyDesk Printer - 72757749', 'EPSON L6270 Series - 72757748', 'EPSON TM-T82 Receipt - 72757744', 'Fax - 72757747', 'Microsoft Print to PDF - 72757741', 'Microsoft XPS Document Writer - 72757746', 'OneNote (Desktop) - 72757745', 'OneNote for Windows 10 - 72757740', and 'EPSON TM-T82 ReceiptSA4 - 72757743' (Offline). On the right, there is a 'Help and Tips' section with a 'Devices' subsection explaining that the page shows a list of registered computers and devices, and a 'Removing computers and printers' subsection explaining how to remove devices by unchecking their boxes in the 'Printers' tab.

Computer	Printers and Scales
DESKTOP-PIJK6M2 529709 Connected	EPSONE97813 (L4160 Series) - 72757742 Default AnyDesk Printer - 72757749 EPSON L6270 Series - 72757748 EPSON TM-T82 Receipt - 72757744 Fax - 72757747 Microsoft Print to PDF - 72757741 Microsoft XPS Document Writer - 72757746 OneNote (Desktop) - 72757745 OneNote for Windows 10 - 72757740 EPSON TM-T82 ReceiptSA4 - 72757743 Offline

5. To test print, Click Print Something Menu.
