(3) If you want to apply a global discount, you must select the 'is discount product' option.

The screenshot shows the 'Discount 20%' product configuration interface. The top navigation bar includes 'Point of Sale', 'Dashboard', 'Orders', 'Products', 'Reporting', and 'Configuration'. The main header displays '[DISC] Discount 20%' and an 'Action' button. Below the header, there are tabs for 'General Information', 'Sales', 'Inventory', and 'Accounting'. The 'General Information' tab is active, showing fields for 'Product Name' (Discount 20%), 'Can be Sold' (checked), 'Can be Purchased' (unchecked), 'Is Combo Product' (unchecked), and 'Is Discount Product' (checked, highlighted with a red box). Other fields include 'Product Type' (Consumable), 'Sales Price' (K 0.00), 'Customer Taxes' (Tax 5 %), 'Cost' (K 0.00), 'Internal Reference' (DISC), 'Barcode', 'Product Category' (All / Saleable / PoS), and 'Product Tags'.

(4) If you do not select the is discount product for the global discount product, the system will display an error message.

The screenshot shows the Point of Sale system interface with an error message overlay. The error message is: 'Global Discount Product Must Be Is Discount Product'. Below the message, it says: 'Go to Product Menu > Find Global Discount Product and Tick > Is Discount Product !'. The background interface shows a transaction screen with a total of 5,100 K, a 20% discount applied, and a 'GIFT CARD' section. The error message is displayed in a red box over the main interface.

If you want to apply a global discount through a promotional reward, the reward product also needs to be marked as a is discounted product.
